Summary

For the last eight years, I have worked as a Lead certification engineer of heavy-duty vehicles. That gave me great experience in the analysis of requirements for products and finding inconsistencies between requirements and products. I want to develop in the field of quality.

Work experience

09.2021–11.2021 – Trainee, Educational Center for Programming and High Tech (IT-Academy).

Project description: training testing of the web application www.likar.info, development of a testing plan and strategy, and control of their implementation, development of a checklist, execution of testing, introduction of defects into Jira. Development of a Test Result Report.

10.2013–03.2022 – Lead Certification Engineer, Joint-stock company "Minsk automobile plant".

Main responsibilities: analysis of requirements, development of a test plan of testing vehicles and technical descriptions for vehicles in Russian and English, analysis of test results.

Achievements: The all needed certificates get on time. Always.

06.2001-10.2013 – Certification Engineer, Joint-stock company "Minsk automobile plant".

Main responsibilities: analysis of requirements, preparation of technical descriptions for vehicles in Russian and English.

Achievements: I solved tasks that more experienced employees could not manage.

Education

09.2021–11.2021 – Educational Center for Programming and High Tech (IT-Academy)

Course: "Software functional testing"

09.1997–06.2001 – Belarusian National Technical University

Specialization: Vehicles

Qualification: Mechanical Engineer
